

Disabled learners* and parents/whānau – we need your voice!

Please share your thoughts and experiences of school in our short online survey. This will help us understand what is or isn't working to support disabled learners, and what needs to change.

The survey will take about 10-20 minutes.

Need assistance?

If you or your child needs help to complete the survey please contact office_for_disability_issues@msd.govt.nz. We can provide NZ Sign Language interpretation or someone to help read or explain the questions to you over the phone or by zoom.

*Disabled Learners include all those children and young people with significant needs for support and adaptations/accommodations to enable them to thrive in education. We are using this term as it is aligned with the NZ Disability Strategy.
