

# WELLINGTON HIGH SCHOOL

## WELLINGTON TRADES ACADEMY 2024

# The purpose of the Wellington Trades Academy (WTA) is ...

- Provide students with a head start in a trades area of interest
- You will have an opportunity to “mix” in school and out of school learning
- The programme will allow you to gain credits and skills towards **BOTH** NCEA and Trades standards and credits
- The skills you will learn at the WTA will assist in preparing you for next steps - return to school, a Pre Apprenticeship polytech course, an apprenticeship or entry level employment
- It is an exciting opportunity for you to start developing trades skills that are valued and needed by employers as well as supporting you to complete NCEA.
